PROJECT EXPERIENCE

Liftoff Capstone Project — Java Produce Vendor Marketplace

- Web application allowing local produce vendors to market effectively and directly to consumers.
- Collaborated with a small group to develop a full-stack Java application using IntelliJ, Spring Boot, and Hibernate.

ShowBook — Java Audition Database

- Designed and developed web service in Java to streamline the auditioning process between actors and casting directors.

WORK EXPERIENCE

Bookseller, Half Price Books, Chesterfield, MO, July 2019 - April 2020

- Assisted customers by answering questions and fulfilling requests.
- Stocked merchandise daily, accurately pricing items and arranging according to size and author.

Costing Specialist, Veritiv Corporation, St. Louis, MO, May 2018 - September 2018

- Worked with Sales Representatives to resolve pricing issues according to company policies.
- Quickly and accurately navigated the company pricing system.

Administrative Assistant/Accounts Payable, G.J. Grewe, St. Louis, MO, January 2018 - April 2018

- Performed general office duties, including routing phone calls, creating Excel sheets, sorting mail, and filing.
- Applied proper codes to invoices and reconciled any issues with vendors to keep documents accurate and organized.
